

# Abhishak Sharma

---

Sr. Software Test Engineer

Panchkula | abhi499152@gmail.com | 7988499152 | Open to Relocation/Remote

---

## Summary

Software Test Engineer with 4+ years of experience in manual and automation testing for web and mobile applications. Proficient in Selenium WebDriver, TestNG, and API testing with Postman. Skilled in Agile methodologies, defect management, and cross-browser testing. Passionate about enhancing automation coverage and optimizing testing efficiency to ensure high-quality releases.

---

## Work Experience

### QA Source

Sr. Software Test Engineer (Jan 2021 – Present)

#### Project: E-Commerce

- Conducted functional testing of shopping cart, checkout, payment gateway, and loyalty modules, ensuring smooth transactions.
- Validated discount codes, promotional offers, and loyalty programs to prevent revenue leakage.
- Performed UI/UX testing across desktop and mobile platforms to deliver a seamless customer experience.
- Executed API testing for payment gateways to ensure secure and reliable transaction processing.
- Created and maintained test cases in TCMS, improving test execution efficiency and coverage.
- Logged and tracked defects using Bugzilla, leading to a reduction in post-release defects.
- Actively participated in Agile ceremonies (daily stand-ups, sprint planning) to align testing with development milestones.

#### Project: Notion

- Tested web and mobile (Android/iOS) applications manually and through automation, ensuring high-quality releases.

- Developed and executed automated test scripts using Selenium WebDriver and TestNG, enhancing test efficiency.
- Performed API testing in Postman, validating API endpoints for reliability and accuracy.
- Executed cross-browser testing across Chrome, Firefox, Safari, and Edge to ensure UI consistency.
- Managed and executed test cases in TCMS, increasing test coverage.
- Collaborated closely with developers and business teams to reduce defect resolution time.
- Provided regular reports on automation coverage, defect tracking, and sprint progress.

## Witsy.AI

Software Test Engineer Intern (July 2020 – November 2020)

### Role & Responsibilities:

- Performed functional and regression testing for AI-based web and mobile applications.
- Automated test scenarios using Selenium WebDriver and TestNG, optimizing test cycles.
- Executed API testing using Postman to validate integration points and system reliability.
- Conducted cross-browser and cross-platform testing to ensure compatibility across devices.
- Reported bugs and collaborated with developers for quick resolution.

---

## Skills & Tools

Automation: Selenium WebDriver, TestNG, TCMS

Programming: Core Java

API Testing: Postman

Defect Tracking: Bugzilla

Methodologies: Agile (Scrum, Kanban), Functional, Regression, Performance Testing

Soft Skills: Analytical Thinking, Problem Solving, Team Collaboration

---

## Certifications

Automation Testing (QSpiders, Bangalore)

---

## Education

Kurukshetra University

Bachelor's Degree in Computer Science, 2017

---

## Additional Information

Languages: English, Hindi

Availability: Open to relocation and remote opportunities
