SUMMARY

Experienced and meticulous Test Engineer with 4 years of expertise in software testing and quality assurance. Proficient in designing and executing test cases, identifying defects, and working closely with development teams to ensure the delivery of high-quality software. Eager to apply my skills in both manual and automation testing to contribute to a collaborative team and enhance product performance and user satisfaction.

EXPERIENCE

Wipro Limited (March 21- April 2025)

Technology Used: Java, Selenium Webdriver, Functional Testing, Web Testing, Regression Testing, Jira, Mobile testing
Domain: Telecommunication, E-commerce

- Designed and executed detailed **manual and automated test cases** to validate core functionality, user interactions, and business flows.
- Developed automation scripts using **Selenium WebDriver with Java** to streamline **regression** and **smoke testing** processes.
- Performed thorough **functional and web testing**, identifying and reporting defects with accuracy and attention to detail.
- Conducted **mobile testing** to ensure consistent behavior across devices and operating systems.
- Created comprehensive **test plans, test cases, and test scripts**, covering both positive and negative scenarios based on requirement specifications.
- Led **User Acceptance Testing (UAT)** cycles, validating application readiness against business requirements prior to deployment.
- Logged and tracked bugs using **Jira**, followed through on defect resolution, retesting, and closure to ensure software stability.
- Collaborated with developers, business analysts, and other stakeholders in Agile sprints to meet project timelines and quality benchmarks.
