# NEHA VERMA

## Profile Summary

Detail-oriented and driven Software Tester with 3 years of experience in software quality assurance through software planning, execution, and analysis.

Skilled at identifying issues early in the development lifecycle and executing a comprehensive range of testing practices, including Functional, Regression, System, Smoke, Sanity, Ad hoc, and GUI Testing. Proficient in test planning, requirement analysis, test case design, and test data maintenance.

Possess a strong investigative nature which enables me to continuously learn from the environment. Ready to join a team where I can further develop my skills and contribute effectively to the organization to achieve its objectives.
