Mr. Kushank Saini

Mob No:- +**91**-**8788774341**
Email:- kushanksaini13@gmail.com
Current Location:- Gurgaon (HR)

Profile Summary:-

- ➢ Offering **4.5+** Yrs of industry experience in **Quality Assurance** with leading Organization of repute.
- ➢ Good Experience Software Testing in **Manual testing (Functional testing) Black box testing, API testing using postman, Data Base testing** and experience **Automation Selenium** with **Java** and Familiar with behavior-driven development (BDD) using Cucumber and Gherkin syntax to write readable and maintainable tests.
- ➢ I have hands on experience on **Web-application (Fronted and Backend), Mobile testing (Android or IOS), Data Base testing** using writing SQL queries**, API Postman** tools.
- ➢ Follow SDLC **Agile** Methodologies & **Scrum** Ceremonies.

Experience Summary:-

Manual Testing Skill Set :-

- ➢ Performed **Sanity testing, Functional**, **Smoke, Integration Retesting**, **Regression testing** and **API testing using Postman** tools**, Data base** writing complex SQL Query**.**
- ➢ Experience in the entire **Software Development Life cycle (SDLC), (STLC)** life cycle from requirements gathering to releasing to production.
- ➢ Analyzing & validating the completeness of **user story** to generate the **test cases** and **test scenarios**.
- ➢ Cloud-based testing platform like Cross browser testing using **Browser Stack**, and **Charles Proxy** for API network traffic analysis to debug API calls, monitor request/response data.
- ➢ Prepared **test Scenarios,** Design **Test cases,** and Defect analysis, defect report.
- ➢ Experienced in **Mobile testing** for both Android and iOS platforms**.**
- ➢ Responsible for **Test Case Writing, Execution**, **Bug Tracking** and **Reporting.**
- ➢ Managed test cases repositories, executed test cases, and tracked testing progress using **TestRail** for test case creation, execution, and defect reporting**.**
- ➢ Automated test results from **Selenium integration** with **TestRail,** streamlining the process of test result logging and reporting in continuous integration environments.
- ➢ Work closely with other testers and developers with bug fixes and **Defect Analysis** Using defect management tool such as **JIRA.**
- ➢ Good experience of **Postman REST** in **API Testing**.
- ➢ Familiar with integrating Selenium with **REST API** testing using tools like Postman and **Rest-Assured** for end- to-end validation of application behavior.
- ➢ Perform the **Test Case Design techniques** like (BVA), Equivalence Partitioning, Decision table testing.
- ➢ Knowledge of Mapping the business requirements with test case in **Traceability matrix.**
- ➢ Experienced in **Data base** testing and proficient in writing SQL queries**. (My SQL, SQL Server).**

Automation Testing Skill Set :-

- ➢ Performed Automation testing using **Selenium WebDriver** on UI Web based application.
- ➢ Good Knowledge about **Framework**.
- ➢ Experience in maintaining already developed **test scripts.**
- ➢ Hands-on experience with test **automation frameworks like TestNG, Junit, BDD Cucumber and Data- Driven Testing.**
- ➢ Experience of identifying Web elements using different types of locators **like id, class Name, tag Name, absolute Xpath, and Relative Xpath** etc.
- ➢ Knowledge of Java, OOPS Concept, Collection framework, Array and String.
- ➢ Worked on Repository management tool like Git, GitLab. Integrated **Jenkins (CI/CD).**
- ➢ Designed and implemented POM for selenium-based automation, improving the maintainability and scalability of the test suit.

Organizational Experience:-

Company	Lumbini Elite Solutions & Services Private Limited (Apr' 2024 – Till Now)
Client	Safe Xpress Pvt. Ltd
Project	Logistic Application
Project Description	This project related to logistic working on Pickup and drop location from to end from Customer portal, employee portal, proof of delivery System, and company website.

Project	Blu Smart (Rider App or Symphony Web)
Project Description	Blu Smart mobile application can be used to purchase rides that are similar to Uber, Ola Cabs. This is a hub to hub model, lack of charging infrastructure and Users can book a cab using the Android or iOS Mobile App. These are different different section divided like rider app, driver app, dispatch section.
Roles & Responsibilities	Requirement Analysis: Understanding the requirements and communicating with BA for better understanding of the requirements. Generating the Test scenarios and Test cases. Conduct Internal Test Case Peer Reviews. Developed Automation Test Scripts. Creating POM (page object model) and Test classes for the framework. Experience in Designing and implementation framework with Selenium. Performed Sanity, Functional & Non Functional, Retesting, Regression, API test.

Company	Commdel Consulting Services Pvt. Ltd. (Jan'2021- Mar'2023)
Client	Ingenico, Verifone
Project	PPaaS, HPCL
Project Description	PPaaS Device Management Services give you what you need to onboard, manage and maintain your terminal estate globally, regardless of the chosen terminal.
Roles & Responsibilities:-	Understand the client requirements and clarify the doubts with BA. Understand the requirements and preparing test Scenarios and test cases. Review OF Test Cases/Test Documents. Execution of Test Cases. Performed Sanity, Functional, Non-Functional, Retesting, Usability testing, Compatibility testing, Regression testing, Data base test, API testing. Selenium using with BDD Cucumber with the help of reporting tools TestNG. Include Framework design, maven dependencies. Java support for Java 15.

Company	Shalom IT Solutions Pvt. Ltd. (July'2019 -Dec'2020)
Project	Grocery E- Commerce
Project Description	This project is a grocery shopping project in which the users can buy the groceries from the website. There are multiple features which the project supports like Session Management, Transaction, Check-Out, Authentication, Availability of the product, Delivery time, Add to favorite, Purchasing and Payment Gateway.

Roles & Responsibilities:-	Understood and analyzed the customer requirements. Involved in the requirement study, design, development, of the test cases. Perform Web and Mobile testing (Android or IOS) Performed Functional, Retesting, Regression, Sanity, Smoke, GUI, Compatibility testing, Usability, Load testing perform. Responsible for creating test proof report and defect report. Create Weekly status reports and attend status meetings on weekly basis with Manager. And Review and track the deliverables.

Company	Nityo Infotech Services Pvt. Ltd. (Sep'2018 – May'2019)
Client	IBM
Project	Apollo Munich Health Insurance
Project Description	It is Health care Web application for responsible to all policies, related to patient detail. We can check add patient and get the report. Easily pay policy amount and patient charge by online
Roles & Responsibilities:-	Perform Web testing using API or backend testing handle. Designed and executed test cases according to functional requirement. Logged defect in JIRA. Responsible for Understanding the requirement and cover for Test case Design techniques use on the RTM. Prepared the negative or positive test cases cover on the basis of customer requirement.

Internship:-

Institute	Seed Infotech Ltd (Aug'2016 – Nov'2017)
Skills	OOPS, SQL, Core Java
Description	Designing, Development and Testing on Demo application which was perform the operations like Create, Update, Delete with APIs.

Education:-

Degree	University	Years
Bachelor of Engineering [B.E]	R.G.P.V University (Bhopal)	2016

Personal Information

Name	Kushank Saini
Date of Birth	07- DEC- 1995
Marital	Single
Language	English, Hindi

Declaration:-

I declare that the above information is accurate to the best of my knowledge.
